EDUCATION

2018 - 2019

COMPUTER SCIENCE

Lambda School

Curriculum:

<https://lambdaschool.com/courses/cs/>

2006 - 2010

PHILOSOPHY

James Madison University

Minors: writing & design

STATEMENT

Tenacious, creative, and cool software engineer and college graduate. Over one year of professional experience as a software engineer. 4 years of working in the software industry, at Rosetta Stone. A self-taught engineer before pursuing further software engineering education at Lambda School.

EXPERIENCE

2018

NEXTLEVELSH!T (GERMANY) Front-End Developer (Contract)

In collaboration with NEXTLEVEL, I contributed to developing and debugging an interactive guilloche, using Angular 4 & D3.

2012 - 2016

ROSETTA STONE Studio Recording Technician/ Product Support Agent

Monitored and recored Rosetta Stone Studio coaching sessions. Coordinated with various departments regarding monitoring various sessions. Provided technical support and troubleshooting.

2016 - 2017

CHARTIQ JavaScript Developer

Helped implement ProCharts into a client's (eToro) AngularJS application. Helped build and debug aspects of ChartIQ's flagship JavaScript/HTML5 charting solution. Contributed to public-facing documentation.

PROJECTS / CODE SAMPLES

D3 / Angular Guilloche
